Article 46. Will the Town authorize the Treasurer with the approval of the Selectmen to hire what money may be needed in anticipation of taxes of the current year, to be paid as soon as money sufficient for the purpose is received?

Voted: That the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1927, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Article 47. To hear the report of any committee heretofore chosen and act thereon.

Voted that the verbal report of progress of New School House Committee be accepted.

Voted that the report of Committee of Sidewalks as read be accepted. Report on file.

Voted that the report of Committee on Gulf River tide gates be accepted as printed in Town Report.

Article 48. George Jason and others. Will the Town raise

and appropriate the sum of \$225 for a new two-horse road machine, or act on anything relating thereto?

Voted in the affirmative.

Article 49. George Jason and others. Will the Town raise and appropriate the sum of \$4,775 for a new Holt tractor, including a steel plow, or act on anything relating thereto?

Voted in the affirmative.

Article 50. William F. Martin and others. Will the Town vote to raise the pay of laborers of the various departments from \$4.80 to \$5.00 a day, or act on anything relating thereto?

Voted in the affirmative.

Article 51. William T. Barnes and others. Will the Town vote to raise the pay for one-ton trucks to \$1.75 an hour, for a double-team \$1.40 an hour, and single team \$1.00 an hour, or act on anything relating thereto?

Voted in the affirmative.

Article 52. Walter B. Binnian and others. Will the Town raise and appropriate the sum of \$1,500 to be expended for the purpose of improving Atlantic Avenue by removing ledges or parts of ledges on the easterly side thereof, the first abutting property of Dennis Golden and the second abutting property of Charlotte E. Cox at a point approximately opposite but a little north of the driveway of the Arthur estate; by removing trees obstructing view in the vicinity of the Fox property, and by widening the roadbed at both points, or act on anything relating thereto?

Voted that the sum of \$1,500 be raised and appropriated for the above purpose and expended by the Highway Surveyor.

Article 53. George F. Sargent, Jr. and others. Will the Town raise and appropriate the sum of \$1,500 for the purpose of improving North Doane Street; said sum to be expended under the direction of the Highway Department?

Voted in the affirmative.

Article 54. Vincenzo V. Sestito and others. Will the Town vote to raise and appropriate the sum of \$700 to remove a ledge on the easterly side of Sohler Street (on edge of street) opposite the residence of Vincenzo V. Sestito, or act on anything relating thereto?

Voted that the sum of \$700 be raised and appropriated for the above purpose and expended by the Highway Surveyor.

Article 55. Daniel E. McSweeney and others. Will the Town raise and appropriate the sum of \$8,000 for the purpose of reconstructing and draining Oak Street, or act on anything relating thereto?

Voted in the affirmative.

Article 56. Frank W. Browne and others. Will the Town raise and appropriate the sum of \$600 to construct a sidewalk on the easterly side of Highland Avenue, from the northerly boundary of the property of Emma Wherity to the property of Nina E. Lincoln, or act on anything relating thereto?

Voted in the negative.

Article 57. The American Legion Auxiliary of the George H. Mealy Post No. 118. Will the Town raise and appropriate the sum of \$150 to be paid to the American Legion Auxiliary for the purpose of furnishing a Memorial Day dinner for the ex-service men?

Voted in the affirmative.

Article 58. Will the Town authorize its Selectmen to sign, seal, execute, acknowledge and deliver for and in behalf of the Town proper instruments releasing all right, title and interest, legal and equitable in and to certain premises situated on Beechwood Street in Cohasset formerly owned by Waldo C. Locke and conveyed to Herbert L. Brown as trustee by instrument dated May 4, 1915, and recorded with Norfolk Deeds, Book 1324, page 545, or act on anything relating thereto?

Voted that the Selectmen be and hereby are authorized and instructed to sign, seal, execute, acknowledge and deliver for and in behalf of the Town a proper instrument releasing all right, title and interest in and to premises on Beechwood Street, Cohasset, Mass., formerly owned by Waldo C. Locke and conveyed to Herbert L. Brown, as trustee by instrument dated May 4, 1915 and recorded with Norfolk Deeds, Book 1324, page 545.

Article 59. Odin Towle and others. Will the Town consider the need of providing vocational training for the children

of Cohasset in conjunction with other nearby towns, appoint a committee therefor, or act on anything relating thereto?

Voted that the School Committee be and is hereby instructed to study the need of Vocational Education in Cohasset and vicinity in conjunction with representatives from other nearby towns, and make a special report thereon at the next annual Town Meeting.

Article 60. Will the Town raise and appropriate the sum of \$3,500 to construct new gates at Gulf River outlet (near Border Street or Gulf River Bridge), or act on anything relating thereto?

Voted in the negative.

Article 61. Joseph F. Kendall and others. Will the Town raise and appropriate the sum of \$750 for preparing and maintaining, under the direction of the Selectmen, a skating field on the land owned by Mr. Newcomb B. Tower and Mr. John H. Winters, situated on the easterly side of Ripley Road near the depot, or act on anything relating thereto?

Voted in the affirmative.

Article 62. To see if the Town desires to reconsider its vote of March 6, 1926, whereby it authorized the building of a new Town Hall, or take any action in relation thereto?

Voted that the vote of the Town on March 6, 1926, under Article 56 of the warrant for the Annual Town Meeting of said date, wherein it authorized the building of a Town Hall and the borrowing of money and the issuance of bonds or notes therefor be and hereby is rescinded in so far as there are no vested rights and any unexpended balance of moneys raised under said vote returned to the Treasury, and especially so much of said vote as authorized the building of a town hall and the borrowing of money and issuance of notes be discontinued, abandoned and rescinded that no new Town Hall be built.

Voted that it is hereby resolved that it is the sentiment of this meeting that the Selectmen ask Mr. B. Preston Clark, William H. McGaw, Henry E. Sweeney, August F. B. Peterson, and Frederick Roche to act jointly with the Board of Selectmen to serve as a committee to investigate the need of remodel-

ing the present Town Hall and eliminating any fire hazard that may exist in or about the present Town Hall and that the Selectmen cause the report of this committee to be printed in the next Town Report, and that any article necessary to carry out the recommendation of the committee be inserted in the next annual Town Warrant.

Article 63. To see if the Town will vote to rescind any part or parts of the vote passed under Article 56 of the warrant for the annual Town Meeting, held on March 6, 1926 (in so far as there are no vested rights), and especially so much of said vote as authorized the borrowing of money and the issuance of bonds or notes therefor, or act on anything relating thereto?

Voted: that this article be indefinitely postponed.

Article 64. To see if the Town will vote to raise and appropriate an additional sum of \$15,000 to be used for the purpose of constructing, equipping and furnishing the new Town Hall building which the Town authorized by vote on Article 56 of the annual Town Meeting, held on March 6, 1926, or act on anything relating thereto?

Voted: that this article be indefinitely postponed.

Article 65. To see if the Town will vote to authorize the Town Accountant to transfer from any available funds a sum of money not in excess of \$5,000, such sum to be appropriated and known as the "Reserve Fund" to provide for extraordinary or unforeseen expenditures, transfers from such fund to be made only upon vote of the Finance Committee?

Voted: that this article be indefinitely postponed.

Article 66. To see if the Town will vote to raise and appropriate the sum of \$1,762.25 in settlement of the lawsuit of Bessie J. Bates against the inhabitants of this Town?

Voted in the affirmative.

Article 67. To see if the Town will accept, consider or act on an offer of Kendall T. Bates of \$2,500 for the purchase of a portion of the Town property situated on North Main Street and containing about one and one-half acres, and authorize the Selectmen to sign, seal, execute, acknowledge and deliver a deed of conveyance of said property, or act on anything relating thereto?

Voted: that this article be indefinitely postponed.

Voted: that the following resolution be adopted:

That it is hereby resolved that it is the sentiment of this meeting that a committee of three be appointed forthwith to be chosen by the Selectmen, said committee to investigate the "gravel pit lot" situation in regard to the destruction, discontinuance of the destruction, preservation for future civic use, or sale of this property and report their recommendations at the next Town Meeting, that William O. Souther, Jr. be a member of the committee.

Article 68. George F. Sargent, Jr., and others. Will the Town raise and appropriate the sum of \$20 to install and maintain an electric light on Doane Street, opposite the residence of Theo Matheis, or act on anything relating thereto?

Voted in the affirmative.

Article 69. Edwin W. Bates and others. Will the Town raise and appropriate the sum of \$20 to install and maintain an electric light on Doane Street near the residence of Pasquale Feola, or act on anything relating thereto?

Voted in the negative.

Article 70. Velma P. Strickland and others. Will the Town raise and appropriate a sufficient sum of money to install and maintain five electric street lights on Lambert's Lane, North Cohasset, or act on anything relating thereto?

Voted in the affirmative.

Article 71. Thomas L. Bates and others. Will the Town raise and appropriate the sum of \$60 to install and maintain three electric lights on the private way leading from North Main Street to the residence of Antonio Modente, or act on anything relating thereto?

Voted in the negative.

Article 72. Elijah F. Lincoln and others. Will the Town raise and appropriate the sum of \$40 to place two electric lights on private way leading off from Beechwood Street known as Mill Road, or act on anything relating thereto?

Voted in the negative.

Article 73. Elizabeth Clark and others. Will the Town raise and appropriate the sum of \$40 to install and maintain

two electric lights on the private way leading from Hull Street, near residence of George Young, to the residence of Edgar C. Clark, or act on anything relating thereto?

Voted in the negative.

Article 74. Will the Town raise and appropriate the sum of \$40 to install and maintain two electric lights on the new section of Hull Street opposite the property of Timothy E. Byrnes, or act on anything relating thereto?

Voted in the affirmative.

Article 75. George Jason and others. Will the Town raise and appropriate the sum of \$150 for two hydrants on Pond Street, the locations to be decided by the Boards of Selectmen and Fire Engineers of Cohasset, or act on anything relating thereto?

Voted in the affirmative.

Voted that the thanks of this meeting be extended to the Moderator for the able and impartial manner in which he has presided over it.

Voted: that this meeting be dissolved.

Remarks

A thorough examination of the financial affairs of this Town has been made under direction of the Division of Accounts, Department of Corporations and Taxation, and report will be made of the result.

The Division of Accounts strongly recommends the creation of a Reserve Fund. This will be absolutely necessary, as in future there will be no "Incidental" account to take care of unforeseen expenses. Also there will be no "Printing" or "Municipal Telephone" accounts, as the items under these headings will have to be charged directly to the departments where they belong.

As will be seen from this year's warrant, the appropriations will be changed considerably, to be in strict conformity with State classifications. Each department is to take care of the appropriations which come under its jurisdiction.

The Division of Accounts is to install an accounting system as of January 1, 1928, as voted by the Town on ballot in March 1923.

Respectfully submitted,

EDWARD L. STEVENS,
Town Accountant.

January 21, 1928.

REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Cohasset:

We hereby submit our report for 1927.

State Audit:

Inspectors from the Division of Accounts have completed an audit of all the accounts of the Town and have found the financial affairs in good condition and a very substantial cash balance in the Town Treasury.

Commonwealth Accounting System:

In accordance with a vote of the Town on March 5, 1923, the Commonwealth system of accounting is now being installed. This will make numerous changes, one of which will do away with the miscellaneous account which has been voted by the Town each year and in the place of which we shall need a reserve fund which can be used only by the united consent of the Selectmen and the Finance Committee, thereby having a double check.

Town Hall:

In 1920, under article 65, a vote was passed instructing the Selectmen what to charge for the use of the Town Hall. The Selectmen would ask further instruction as to what organizations should be included as charitable.

Hull Street:

The amount levied on the Town by the joint Boards of County Commissioners for the relocation and construction of Hull Street, is eighteen thousand, five hundred dollars (\$18,500) and we recommend that this be paid from the unexpended balance in the Treasury.

Electric Street Lighting:

The matter of an all-night, all-the-year-round electric lighting for our streets will be brought up at the business meeting in March. The Selectmen have taken up the matter with the Electric Light and Power Co. of Abington and Rockland and find that the increased service would cost two dollars extra for each light or in round figures, eight hundred dollars (\$800) per year. It is for the voters to decide.

Street Signs:

We recommend another appropriation of five hundred dollars (\$500) to complete the purchase and erection of Evernu street signs. This will give us uniform signs throughout the Town.

Town Landing:

Defects were discovered in the wall at the town landing, so to prevent further damage and larger expense the wall was repaired at an outlay of \$571.76.

Straits Pond and James Brook:

The gates at the two places were cared for by the same reliable men as in 1926, *viz.*, Fitzpatrick & Happenny and Arthur O. Wood, respectively, therefore no trouble was experienced at either place.

James Brook:

A beginning was made to improve the drainage of James Brook. The Selectmen employed a competent civil engineer, Mr. Lewis N. Perkins, who made a survey of the stream from Ripley Road and Smith Place to the Cove and furnished a profile map of the stream. With the coöperation of the Board of Health the highest point was reduced to the proper level and piped under the direction of George Jason, our highway surveyor. This work, together with that done by the New York, New Haven & Hartford Railroad, has partially relieved the

flood condition in that locality, but the work of grading and piping should be continued so as to eliminate the nuisance of sewage through the center of the Town. This work properly comes under the Board of Health and we hope to see it supported by the voters.

Police Department:

In April the Selectmen appointed Hector J. Pelletier, Chief of Police, and the great improvement of the department is a fact noted by the citizens of the Town as well as our many visitors.

The morale of the Department is excellent, which is a satisfaction to all of us.

Frank Jason was appointed Sergeant of Police, after twenty-five years of service on the force.

Fire Department:

The conduct of this Department is a satisfaction to our Board. The engineers are working in harmony for the good of the whole Department and the Town.

Inspection of Wires:

We note with deep regret the death of S. Chester Pratt, who served the Town for many years as Inspector of Wires. He was a man of unquestioned integrity and respected by all.

On September 8, Herbert Williams was appointed to fill the vacancy.

We thank all the Town Officers for their faithful service and our citizens for their interest and support.

DARIUS W. GILBERT,
HERBERT L. BROWN,
HARRY S. PARKER,

Selectmen of Cohasset.

REPORT OF THE ASSESSORS

HERBERT L. BROWN,
DARIUS W. GILBERT,
WILLIAM H. McGAW,
Assessors.

REPORT OF THE BOARD OF PUBLIC WELFARE 1927

The past year has been an uneventful one at the Town Infirmary on Pond Street. Since our last annual report three of our people have passed away — one woman and two men. At the present time we have with us two women and five men. They are well cared for and happy. We can, on good authority, claim to have one of the finest if not the very finest Town Infirmary in the state.

During the past year we have not added to our chicken brooder unit, but hope to do so during the ensuing year. Our experience during 1926 showed this feature of the farm to be good business policy. Eggs and poultry sold during the year yielded the sum of \$378.60.

The Board of Public Welfare has deemed it good business and in line with modern progress to have installed in the kitchen a "Kelvinator" refrigerator of ample size in anticipation of future necessities. This refrigerator, it is figured, will pay for its cost in about three years not to mention the greatly increased efficiency and saving of labor in and about the kitchen.

During the coming year (1928) it is hoped that we shall be able to reshingle at least one half of the roof of the Infirmary, this being the north or side most exposed to severe storms. Our local contractors and builders have been asked to make examination of the premises and to submit sealed bids for doing the work required. While the entire roof would undoubtedly benefit by reshingling, by this method we hope to distribute the expense over two years instead of assuming it collectively in 1928.

It is fitting that we should here make acknowledgment to the different local societies that have, from time to time, visited the Infirmary and brought gladness and cheer to our people. Among these have been the Girl Scouts, the George H. Mealy Post No. 118 American Legion, the Social Service League and

the Carol Singers. Most of these societies took advantage of the Christmas season to bring useful presents and to sing, and we wish that everybody who took part in these exercises could realize how deeply and sincerely their efforts were appreciated.

Our Town physician, Dr. Frederick Hinchliffe, has been untiring in his official capacity at the Infirmary, and the thanks of all concerned are due him.

Mr. and Mrs. Louie have again demonstrated their executive ability, professional knowledge and great human sympathy and the Board is indebted to them for the faithful and efficient manner in which they have carried on the work of the Infirmary.

By reference to the Recapitulation of Poor Accounts by the Town Accountant, it will be noticed that the expenses applying to the Outside Poor are steadily increasing year by year, and that to anticipate these growing charges, increased appropriations should be made available.

It will be necessary to appropriate in 1928, besides the sum required for maintenance in 1928, the following:

Overdraft, 1927.....	\$771.09	
Unpaid bills of 1927.....	191.50	
	<hr/>	\$962.59

The increased cost of maintenance in 1927 was caused principally by aid given several new families. It is very difficult to appropriate with any accuracy for the needs of "Outside Poor," as conditions vary so much.

Comparative cost of the poor in Cohasset for the years 1925, 1926 and 1927 follows:

COHASSET HOME

<i>Year</i>	<i>Total Expense</i>	<i>Receipts</i>	<i>Net Cost</i>
1925.....	\$6,952.90	\$1,123.06	\$5,829.84
1926.....	5,880.76	830.38	5,050.38
1927.....	6,019.22	1,339.65	4,679.57

OUTSIDE POOR

<i>Year</i>	<i>Total Expense</i>	<i>Receipts</i>	<i>Net Cost</i>
1925.....	\$3,930.81	\$1,635.31	\$2,295.50
1926.....	4,156.97	1,049.37	3,107.60
1927.....	5,129.21	500.67	4,628.54

HARRY S. PARKER, *Chairman*,
 HERBERT L. BROWN,
 DARIUS W. GILBERT,
Overseers of the Poor.

HARRY F. TILDEN,
Tax Collector.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Board of Selectmen.

Gentlemen: Your Sealer, in submitting his annual report, would respectfully state that during the past year 636 appliances have been sealed, 135 adjusted and 13 condemned. Tests, reweighings, etc., have been made as usual, and the sum of \$62.36 collected as fees has been paid to the Town Treasurer.

The condition of the various weighing and measuring appliances in the Town is most excellent, and no complaint or criticism of any kind has been made by the State Inspector during the past year.

The test weights at the Town Hall in the custody of the Treasurer are now in process of renickeling and retesting, as requested by the Director of Standards of the state. Your sealer would respectfully suggest that a sufficient amount be added to his appropriation to cover this expense, if it is the intention in this instance to deduct the amount from his none too corpulent appropriation.

Respectfully submitted,

CALEB NICHOLS,
Sealer.

Cohasset, February 6, 1928.

TREE WARDEN REPORT

To the Citizens of Cohasset:

As your Tree Warden for the year 1927, I hereby submit the following report. The work was carried on practically as in past years. Planting young trees, and digging around young and old trees where it was possible, also the taking down of large elm trees which were dangerous to the safety of the public, also pruning in old trees as far as the appropriation would allow. But in this branch of work we covered only a small part of the Town. There are a great many dead limbs in the trees of our Town which should be removed. Those that are the weakest fall on our sidewalks and roadbeds during a high wind storm, and to prevent any accidents, I recommend that a sufficient amount of money be raised and appropriated for the purpose of removing dead limbs. The high wind storm which swept through our Town last August did a great deal of damage to our shade trees which has not been wholly taken care of as yet. I did what should have been done to relieve the situation for the time being, as the appropriation was practically exhausted. There are several trees with the tops blown off that should come down and be replaced. The high winds of the past few days, namely the week of January 22, have caused a heavy damage to our trees which I am now taking care of out of next year's appropriation.

I therefore recommend that the sum of \$2,500 be raised and appropriated at our annual meeting next March for the Tree Warden Department. I take this opportunity to thank the citizens for their coöperation in this Department.

Respectfully submitted,

JOSEPH E. GRASSIE,
Tree Warden.

WHEELWRIGHT PARK

To the Honorable Board of Selectmen:

Gentlemen: Having been appointed as superintendent of Wheelwright Park, I herewith submit the following report. The work in the Park consists chiefly of mowing bushes and burning same, as in my opinion it is the most important work to be carried on at the present time; also the pruning of trees where necessary. After the heavy rains of the past season the roadbed was washed to some extent, which had to be repaired by carting in some gravel in order to make it passable, which was done.

The standing grass was sold at auction for \$20, and the same was turned over to the Town Treasurer.

For the benefit of those who do not know, Wheelwright Park consists of a large tract of land with one entrance on North Main Street opposite gate leading into gravel pit and by following the cart path it will bring you out on Forest Avenue, about halfway between North Main Street and Jerusalem Road. I would not recommend driving in with automobile as the road is unsafe in some places, but it is a good wholesome walk for those who desire to do so, especially during the summer months when the foliage is on the trees.

Respectfully submitted,

JOSEPH E. GRASSIE,
Superintendent.

REPORT OF THE BOARD OF HEALTH

Cohasset, Mass., February 4, 1928.

The following cases of infections and contagious diseases were reported to this Board during the past year.

Chicken pox.....	4
Diphtheria.....	8
German measles.....	4
Measles.....	5
Mumps.....	5
Scarlet fever.....	3
Tuberculosis (Pulmonary).....	3
Whooping cough.....	7
Pneumonia (lobar).....	2

The usual number of complaints have been received and investigated.

The work of the school dentist is being carried on with great success.

At this time we wish to call your attention to the fact that an increased appropriation is needed by this Board to take care of added duties that have for a number of years past been carried out under the direction of your Board of Selectmen.

This change was ordered by the state auditors and the duties include the care of all ponds, waterways, gates and Town dumps. A regular appropriation has always been provided for these duties.

The James Brook which runs through the business section of the Town, is in its present condition, considered a nuisance by your Board of Health.

Your Selectmen, with the aid of the Town Engineer, have made a careful study of the present condition of this brook. They have a plan which has just been turned over to this Board, giving a detailed description of what could be done to

make this brook a more sanitary and useful stream. The total estimated cost of this work, as planned, would be about \$38,000. This would provide for giving brook proper grades, cementing bottom and covering top where needed, from Smith Place, near the railroad station, to meadow at rear of Public Library.

A culvert was built over James Brook at Pleasant Street last year, conforming with the present proposed plan as to grades and size of culverts; part of the cost of this work was paid for out of the regular Board of Health appropriation of 1927, and expended under the direction of the Selectmen.

As this Board has not had the necessary time to study the proposed plan for the permanent improvement of James Brook, and as the amount needed to carry out this plan is so large, we are inserting an article in the Town warrant at the next annual Town Meeting, asking for a special appropriation of \$1500. This amount to be used as a measure of temporary relief. We plan to clean out the brook to as near the grade given on proposed plan as possible, without disturbing the present side walls of stream, and repairing side walls where needed.

We feel that this expenditure will be most helpful in solving the present unhealthy condition of James Brook, and allow more time for study of the proposed plan which calls for the larger expenditure to carry out the complete plan, if necessary, of the Town engineer.

Respectfully,

IRVING F. SYLVESTER, *Chairman*,
EDWARD L. HIGGINS, *Secretary*,
ABRAHAM ENOS.

REPORT OF
COLLECTOR OF SAMPLES OF MILK AND VINEGAR

Cohasset, Mass., February 4, 1928.

To Cohasset Board of Health.

Gentlemen:

The highest count of bacteria in samples of milk examined the past year was 80,000 (500,000 permissible). The lowest 200.

Only one slightly low in butter fat.

All vinegar samples examined up to legal standard.

The examinations, as a whole, showed excellent results.

IRVING F. SYLVESTER,
Collector of Samples of Milk and Vinegar.

REPORT OF THE HARBOR MASTERS

Cohasset, Mass., January 28, 1928.

To the Honorable Board of Selectmen.

Gentlemen: The report of your Harbor Masters for the year 1927 is as follows:

The great increase in the number of boats using Cohasset harbor has caused serious congestion, and the problem of providing mooring space for the regular boats as well as the transients is becoming a very difficult proposition. It was necessary, during the past season, to moor several boats in the main channel. This condition should be relieved as soon as possible, as we have a great many visitors coming to our harbor with large boats, and it can be readily seen that it is imperative to keep the channel open at all times. This condition can be overcome by having additional dredging done on the northwest side of the channel, thereby enlarging the Yacht Club basin.

The new channel buoys which were erected last year were found very helpful, and it is the intention of your Harbor Masters to install two new ones on the opposite side of the channel this coming season.

Although the floats and runways at the Town landings can be repaired, it will be necessary to replace them in a few years. The giving away of the retaining wall at the Town landing created a very serious condition, and as this was not foreseen, it was necessary to refer the repairing of this wall to the Board of Selectmen.

Your Harbor Masters wish to call to your attention a long-felt want, namely, the installing of a proper and permanent runway at the so-called Land Wash. This is the only place at the harbor that a small boat can be launched or hauled up, and the conditions at this location as they now exist make this operation a very difficult one.

This cement runway can be put in for the moderate sum of

\$250, and we recommend that this sum be appropriated for this purpose, as it will be a great benefit to all the fishermen and yachtsmen of Cohasset.

It is indeed gratifying to receive the many favorable comments by visitors to our harbor on the vital facilities the Town has provided, namely, a well marked channel, large and convenient landing places, running water, etc. Through the untiring efforts of Mr. Clarence W. Barron, Commodore of the Cohasset Yacht Club, four large and important entrance markers have been put down by the Federal Government; the markers consist of small white blinker, one red blinker, a bell buoy, and a large white blinker on the outer channel dolphin, and involved a large expenditure of money.

Furthermore, the installing of these markers has been a great benefit to the strangers on entering and leaving our harbor, and has also attracted many boats seeking shelter from rough weather.

We wish to take the opportunity at this time to express our sincere thanks and appreciation to all the fishermen and yachtsmen of Cohasset who have so heartily coöperated with us in the performance of our duties.

Respectfully submitted,

JOHN J. GRASSIE,
JOSEPH G. ENOS.

REPORT OF THE BOARD OF FIRE ENGINEERS

To the Honorable Board of Selectmen.

Gentlemen: The Board of Engineers appointed by your Honorable Board for the year ending April 30, 1928, met in accordance with your instructions on May 2, 1927, with the following choice of officers:

Chief, Frank F. Martin, Jr.
 Assistant Chief, Joseph L. Oliver.
 District Chief, Everett W. Wheelwright.
 District Chief, Edward Fitzpatrick
 Clerk, Joseph H. Donovan.

During the past year the Department has responded to fifty-three alarms, thirty box alarms, and twenty-three still alarms as follows:

House.....	10
Chimney.....	15
Barn.....	2
Shop.....	1
Automobile.....	3
Boat.....	2
Grass.....	9
Electric light pole.....	2
False.....	7
Out-of-town call.....	1
Needless.....	1
<hr/>	
Total.....	53

Postscript. This does not include the grass fires answered by the Forest Department.

Causes of alarms in 1927:

Soot in chimney	15
Sparks from chimney	7
False	7
Electric light wires	3
Gasoline	3
Fireplace	1
Overflow of grease on stove	1
Cigarette	2
Grass	3
Out-of-town call	1
Needless; over town line	1
Unknown	9
Total	53

Number of house fires with damage to building or contents:
1925, 9; 1926, 15; 1927, 10.

The assessed value of property involved was \$223,000, and the estimated loss was \$3,325.

	<i>Assessed Value</i>	<i>Estimated Loss</i>
1925	\$128,125.00	\$10,225.00
1926	116,800.00	8,085.00
1927	223,000.00	3,325.00

The assessed value is for buildings only and does not include the contents that were involved.

Engine 1 responded to forty-four alarms, Ladder 1 to thirty-two alarms, Engine 2 to eleven alarms, and Combination 1 to ten alarms. The department laid 4,950 feet of 2½-inch hose, raised 817 feet of ladders, and used 578 gallons of chemical.

As 1927 was proclaimed by the National Board of Fire Chiefs as fire prevention year the Engineers are pleased to report that with the coöperation of the citizens, the fire losses of this Town were reduced to more than one half of last year's. We wish to call your attention to the number of chimney fires, or fires caused from chimneys and ask you to help to reduce

the number this year. All chimneys should be cleaned at least once a year, or a piece of zinc burned in your stove and furnace occasionally will help to keep your chimney clean.

Fire Alarm

The fire alarm of Cohasset is divided into four circuits, and many changes were made so as to even up the number of boxes on each circuit, and at the same time do away with a section of wire that was in a wooded section of the Town, which was always causing trouble and was a big expense to keep clear of grounds. Seven miles of wire was replaced this year and many new cross arms were attached. A fire traffic horn was mounted on a pole near the police station to clear traffic when the fire apparatus are called to go through the center of the Town. This horn is operated from the Central Station and is not to be operated during the late hours of the night or early hours of the morning. A fire tapper was installed in the police station, so that the police may receive all alarms; police officers answer all alarms and have been a great help to the firemen in keeping the fire lines clear. New plates were installed in the batteries at the fire alarm station, and by doing so the batteries are in first class shape. During the sleet storm of the past summer, and the rain and wind storm in December fire alarm wires were torn down, boxes, tappers and fuses were burned out, and a large amount was required to repair the damage of these two storms. The wire running along Pond Street must be renewed this year.

Inspection

At various intervals an inspection has been made of the Town's business section and the occupants were instructed to clean up all fire hazards. All complaints received in regard to fire hazard were at once corrected by the Chief. After a careful inspection a number of permits were issued for oil heaters and gasoline tanks.

Equipment

The Board has added to the department this year, fifteen hundred feet 2½-inch hose, a fire net, firemen's helmets, ten

protective blankets and a number of small articles so as to fight fires with less danger to the firemen. We are pleased to report to the taxpayers that this department has all the necessary equipment recommended to them by the Board of Fire Underwriters. It has been the policy of this Board to equip this department with all the modern fire equipment, so that this department will not be handicapped in any way in fighting a fire.

During the past year many of our fellow citizens have visited the fire station and have seen what the fire department had, and we hope all who have not paid a visit to the stations will do so this year and we know you will go away pleased as all others have. The Chief or one of the engineers will be pleased to meet you, and explain all to you. It is your department as much as ours.

In conclusion, we wish to extend our thanks to the Honorable Board of Selectmen for their coöperation and interest in the welfare of the department. To Chief of Police Pelletier and the officers of his department for their coöperation and assistance. To all others that have volunteered their services or assisted the department in any way, and also to the officers and members of this department for the efficient and faithful manner in which they have performed their duty.

Respectfully submitted,

FRANK F. MARTIN, JR.,
JOSEPH L. OLIVER,
EVERETT W. WHEELWRIGHT,
EDWARD J. FITZPATRICK,
JOSEPH H. DONOVAN,
Board of Fire Engineers.

REPORT OF THE WIRE INSPECTOR

To the Honorable Board of Selectmen:

Gentlemen: In submitting my report as Wire Inspector for the unexpired term of 1927, which was left open by the death of the late S. Chester Pratt, I wish to comment favorably on the work accomplished by the former Inspector of Wires prior to my appointment.

There have been no radical changes in Electrical Wiring, as taken from the provisions of the latest issue of National Electrical Code, which is recommended by the National Fire Protection Association. All work under my supervision has been thoroughly inspected.

The Electric Light and Power Company have done a lot of new construction work this year, so that now practically all of their lines are in first class shape and service should be greatly improved. I find that Mr. Phillips, manager of this company, is always ready to give me his hearty coöperation in all branches of construction.

In course of my work I have inspected the installation of several automatic oil burners, which met all the provisions of the National Board of Fire Underwriters.

In closing, I wish to express my appreciation to the Board of Selectmen, the Electric Light and Power Company, the Cohasset Fire Department, and the several electrical contractors for their coöperation.

Respectfully submitted,

HERBERT WILLIAMS.

REPORT OF THE COHASSET POLICE DEPARTMENT

April 8, 1927 to December 31, 1927

January 1, 1928.

To the Honorable Board of Selectmen.

Gentlemen: I herewith respectfully submit my first report for the Police Department of the Town of Cohasset, beginning April 8, 1927 to December 31, 1927.

Mileage of motorcycles, 6,000 miles.

Mileage of police car, 8,000 miles.

Summons served for other police departments, 110.

Accidents investigated, 45.

Crime

During the year the Town has been free from serious crimes or disturbances. The slight increase in the number of arrests is due to the fact that an officer has been stationed at police headquarters twenty-four hours a day.

Welfare Work

The Town does not employ any welfare workers. The police do some welfare work and each year this work will increase. We try to remedy and correct delinquents without recourse to courts. We call such cases to the attention of the parents, teachers and spiritual advisers and always get coöperation from them. We also receive some assistance from the State Welfare Associations.

Gaming and the Social Evil

We have had but little trouble in enforcing the laws against gaming and liquor violations. Owing to the fact that both have received strict attention, neither has become commercialized or secured a foothold here. We believe in strict enforcement of these laws.

Traffic and Parking

This summer traffic was well handled by the men of the department and at no time was there any congestion or serious accidents. A new beacon light was installed on the corner of South Main and Brook Streets; also one at the corner of Elm and Brook Streets which caused cars to slow down and thus eliminated accidents at these points. A traffic stand was put in use in the George H. Mealey Square and proved to be helpful to the motorist and the police officers. White traffic belts were purchased for the officers doing traffic duty nights of the Carillon Concerts. A uniform set of traffic signals was adopted by the department. Parking spaces were painted on the streets for the shoppers. I would recommend that more white lines be painted this coming year on the bad curves and narrow

places of the Town. Warning signs have been placed near the schools.

Police Headquarters and Equipment

Several changes were made in the station. A new office was installed downstairs; a fire tapper put in by the fire department; lockers were installed also. The back room upstairs was converted into a first aid room and also to be used as an office by the district nurse. The Buick car is in very good condition and has rendered excellent service to the department. Every officer is equipped with a regulation Police Colt revolver 38. A new system of keeping records was installed so that every arrest and accident is recorded. A daily log is kept to show the time each man reports for duty and goes off. Every telephone call is recorded in this log showing the officer's name who receives it and the name of the officer who investigates it if any investigation is necessary. The name of every person who comes into the station on business is recorded and the nature of his business. A police box was installed at the Cove so that headquarters may communicate with the man at a moment's notice and the officer can at all times communicate with headquarters. Suitable uniforms were purchased for the motor cycle officers. The old Indian motor cycle was traded for a later model. The hours of the men were changed somewhat, in order to give every part of the town police protection. A "roving patrol" in the police car or motor cycle was put into effect every night from 10 p.m. until 2 a.m.

Safety in the Schools

We are doing some work along this line and intend to do more. On November 10 a "Safety Day" was observed in the schools and with the coöperation of the School Committee and teachers it was very successful. About five hundred and seventy-five children signed the pledge: "To Play Act Safe." "Can children be saved from death by motor cars?" Endeavoring to save children from death by motor cars by proper and careful instructions is a very important police matter. The school safety monitors are doing their part.

RECOMMENDATIONS

The number of men appointed to give the Town proper police protection is very small. The man that was stationed at West Corner was transferred to headquarters in order to keep a man at headquarters all the time. It is my desire to return a man to that part of the Town. The men of the department do not receive any time off, like other police departments. It is my honest belief that the officers should get one day off a week. So that two more men should be appointed to give the Town proper and adequate police protection.

Conclusion

I realize that the measure of success we have achieved in maintaining law and order is owing to the coöperation of the courts and Town Officials, also loyalty and harmony among the men of the department and to the fact that the greater part of our people are orderly and law abiding.

Respectfully submitted,

HECTOR J. PELLETIER,
Chief of Police.

REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen.

Gentlemen: My report as Forest Warden the past year is as follows:

Owing to the dry spring of 1927 the number of grass and forest fires was very high in the counties south of Boston. At meetings of Forest Wardens from Norfolk, Plymouth and Barnstable counties, it was shown that Cohasset had the least number of fires and was the only Town to keep within its appropriation. As an experiment I have burned along the highway and on private property, grass and rubbish piles that were fire hazards and I think the citizens of the Town know that it was the means of saving property and reducing the number of grass and forest fires. We had thirty less fires than in 1926. I hope to do the same burning this year. The permit law commences March 1 and ends December 1, 1928.

I want to thank the citizens for helping this department and ask for your coöperation. If you want the Forest Department, go to the telephone and call the fire station. Do not pull a box for a grass or wood fire.

Respectfully submitted,

FRANK F. MARTIN, JR.,
Forest Warden.

REPORT OF THE HIGHWAY SURVEYOR

To the Citizens of Cohasset:

I submit the following as my report for the past year:

All roads were cut back to original layout with the two scrapers; this work was done as early as possible so that the tarvia could be put on before traffic became heavy. About 46,500 gallons of tarvia and asphalt were used and nearly all of the streets were covered.

Oak Street was constructed as laid out, 1,580 feet of pipe being used for draining, eight catch basins made, and 4,000 gallons of oil and asphalt applied. A seven-foot sidewalk was built also and the street thoroughly sprinkled and rolled.

The construction of the sidewalk on Main and Elm Streets was let out by contract, the work being done very satisfactorily. The piece on Elm Street was narrowed a foot to widen the street, and I would suggest that this be done on Main Street to widen the very narrow stretch from the George H. Mealy Square to the corner of Depot Avenue.

Ledges on Atlantic and Sohier Street were removed and as you will note the charges for the use of the compressed air machine were \$517.83 and \$71.10. I would recommend the purchase of a compressed air machine. The removing of the ledge of Sohier Street necessitated the putting in of two new catch basins, making an added expense not included in the estimate.

Pond Street is very much in need of rebuilding. It should be drained and graded like the other four streets, Pleasant, Norfolk Road, Ash and Oak. Several large rocks must be removed when this street is reconstructed. Six new houses or about \$80,000 worth of taxable property, have been built within the last three years on this street and more are to be built. I would suggest that that part of the street from the top of the second hill to the railroad track be rebuilt this year.

The fences have been repaired, painted white, and new ones built.

A sidewalk tandem roller would be a great help in the repairing of the sidewalks as well as in patching.

The clearing and removing of snow from the highways is a costly expenditure but one that cannot be avoided because of the automobile traffic. Every street in Cohasset was cleared after each snowstorm and in as much as the winter was a severe one the cost was heavy.

In conclusion I and the men who work with me wish to thank the citizens of Cohasset for the helpful suggestions and courtesies which have been received the past year.

Respectfully submitted,

GEORGE JASON,
Highway Surveyor.

COMMITTEE ON TOWN HALL

January 24, 1928.

To the Citizens of Cohasset:

In accordance with resolutions adopted at the last annual Town Meeting, the Committee appointed to make recommendations regarding the necessary changes to make the Town Hall safe, respectfully submit the following report:

At its first meeting the Committee voted to avail itself of the services of Mr. Edward Nichols, architect. Mr. Nichols investigated the proposition and after meeting with the Committee several times, submitted three (3) propositions.

Plan No. 1

This plan is to place the main auditorium of the Hall on the ground floor, this to be accomplished by raising or reconstructing the present main floor of the Town Hall in order to obtain the necessary height of approximately eighteen (18) feet. It also proposes to reconstruct the present front entrance, doing away with the dangerous flight of stairs and making three (3) exits on each side of the Hall in addition to a spacious front entrance. This plan makes it necessary to reconstruct the present stage and will also add to the capacity of the Hall, bringing the total seating capacity to six hundred — five hundred seats in the auditorium and one hundred additional seats on the stage. It also provides adequate space for necessary offices in the Hall, with proper toilet facilities, which the present offices lack; it does, however, eliminate the small hall.

Plan No. 2

This plan provides for the proper exits and stairways in the present Hall at the present level (second floor). This is to be done by separating the present wide and straight flight of stairs

going up on the right and left of the present front projection and putting new staircases from the rear of the Hall directly to the ground without connection with the stage, the stage also being provided with exits as required. This plan does not increase the present seating capacity of the Hall. The staircases at the rear of the Hall will be built into a stair well which will necessitate an addition on the southerly side of the Hall.

Plan No. 3

This plan provides change in exits and additional stairs in rear, and is the least that can be done to present Hall to meet the requirements of the State Department of Public Safety.

The estimated costs of these plans as submitted by the architect, are as follows:

Plan No. 1.....	\$34,738.00
Plan No. 2.....	21,355.40
Plan No. 3.....	10,000.00

The Committee, after much discussion and careful consideration of the three plans submitted, have reached the unanimous conclusion that Plan No. 1 is the only practical and economical proposition to accept. In their opinion the present Hall would not be as safe with the auditorium on the second floor, it being very evident that by placing the auditorium on the ground level all hazards from fire or panic are absolutely eliminated.

The auditorium if placed at the ground level, would have an unlimited scope of usefulness for all manner of public gatherings. With the seating capacity of six hundred it would seem that this auditorium would meet all demands for years to come, such as Town Meetings, dances, social functions where unlimited means of decorations are essential, basket ball games, Boy and Girl Scout drills, etc.

A very important and long felt need of the Town may be provided for in a Hall of this construction by the installing of standard gymnasium apparatus, all of which may be readily removed so that the building may be used for general utility purposes.

The Committee takes this opportunity to express its thanks to Mr. Nichols for his unlimited efforts and his very valuable advice.

Respectfully submitted,

FRED G. ROCHE, *Chairman*,
H. S. PARKER, *Secretary*,

H. L. BROWN,
A. F. B. PETERSEN,
HENRY E. SWEENEY,
WILLIAM H. McGAW,
B. PRESTON CLARK.

NEW GRADE SCHOOL BUILDING

February 1, 1928.

To the Honorable Board of Selectmen,
Town of Cohasset, Mass.

The Building Committee of the New Grade School begs to make the following report:

The school was completed in April and turned over to the School Committee, who by their reports, are very much pleased with the building. Because of the difficult nature of the grading, it was necessary for the School Committee to spend some money to make the playground more suitable for the children and would seem that further improvements are required along this line.

The danger which threatened the Town because of the financial difficulties of the contractor was very satisfactorily overcome by the untiring efforts of the Town Council, together with the high character and honest business policies of the United States Fidelity and Guarantee Company. All outstanding claims against the Town have been taken care of by the Bonding Company.

The Committee wishes to take this opportunity to thank everyone which it came in contact with in the erection of the school; it has been a pleasure for each member to have served on this committee. We also wish to call to the attention of the citizens the fine work that was done in the finish grading of the lot, as we felt that we did not have quite enough money to do such a first-class job.

There remains a few matters yet to be settled, but a complete and final report can be made at the Annual Town Meeting.

Respectfully submitted,

FREDERICK G. ROCHE, *Chairman*,
DEAN K. JAMES, *Secretary*,
B. P. CLARK,
EDWARD F. WILLCUTT,
HENRY E. SWEENEY.

REPORT OF THE DIRECTORS OF THE PAUL PRATT MEMORIAL LIBRARY

The Directors herewith present their report for the year ending December 31, 1927.

We report with regret the resignation of Miss Hazel Randall as Librarian. Miss Randall has given devoted and efficient service to the Library and has noticeably increased the interest of the schools and of the young people in general in the Library as a center of information and enjoyment.

We append to this report Miss Randall's annual report containing information and suggestions of interest and value which are well worth reading and consideration by the citizens of the Town.

As suggested in our last Annual Report, the interior of the Library building has been repainted and an oil burner has been installed in the heating apparatus which is giving good service.

The report of the Treasurer and Librarian follow, giving the financial condition of the Library and details of operation.

Respectfully submitted,

Cohasset, January 11, 1928.

REPORT OF THE LIBRARIAN TO THE DIRECTORS OF THE PAUL PRATT MEMORIAL LIBRARY

January, 1928.

Directors of the Paul Pratt Memorial Library:

Gentlemen: I hereby submit my report of the work carried on at the Paul Pratt Memorial Library for the year 1927.

The chief work, aside from the regular delivery of books and research on reference questions, has been a continuation of the reclassification of non-fiction; more than half the collection is finished at present, and another year should see it completed.

Mrs. Richard W. Howe assisted me in the cataloguing of the collection at Beechwood this summer. We definitely assigned to the library there, those books that were second copies of the Paul Pratt collection; which changes the status of the Beechwood Library, according to library standards, from that of a deposit station, to one of a real branch library. We hope to add more new books to the branch this coming year, by means of our Duplicate Pay Collection at the main library. This collection is one which duplicates new fiction titles added to our general collection, and rents them at two cents a day.

When the books have paid for themselves, they are issued free of charge. This supplies the popular demand while the books are new. As soon as the regular copies can supply all requests, the duplicates are sent to Beechwood, which usually means four months from the time of their accession.

Our object in introducing the duplicate collection was to remedy the drop in circulation during the first few months of this year. We were not supplying the demand for new books fast enough to satisfy the public. The resulting increase during the last months made up for the loss of the first, but did not total the annual increase in circulation a thriving library should show.

I feel that the apportionment of library funds for books is not nearly enough to supply the public demand. The appropriation for running expenses has been increased annually, but the amount spent for new books, about \$600, has been the same for many years. The price of books has more than doubled in the last five or ten years. I wish to suggest that the Board ask the Town for a special annual appropriation for books. Almost every other town library in Massachusetts has one, unless it is very heavily endowed. I feel sure the people of Cohasset would gladly vote for an appropriation, which would supply such a widespread need.

The most interesting work of the year has been in the children's department, and with the schools. The extra apportionment of \$100 for children's books was very helpful, in connection with Children's Book Week, and in increasing the juvenile collection. The story hour has been even more successful than last year and the children have taken an active interest in telling stories themselves. I think they have developed some very real talent.

We have edited new graded lists of books in the library, beginning with the second grade and going through the eighth, and we have visited all classrooms to distribute and explain them to the children. This was done just at the close of the year. The resulting rapid increase in children's reading give promise of a very busy new year.

The eighth grade people came to the library this fall for instruction in the classification of the collection and use of the catalogue in finding books. They have still one more lecture on reference books to hear.

Miss Collins, the English teacher at the High School, asked our coöperation in making and posting reading lists here, for the four classes of High. So that every grade from the second up has a special list of books in this library, from which to choose.

At the request of the editor of *South Shore Life*, I have written several articles on the work of the library. The most gratifying thing in the whole year's work is that people are coming to us more and more for the information and guidance

we had formerly to advertise. The public has been quite free with suggestions for the purchase of new books, which seems a very excellent omen of the increasing general interest in the library.

We are indebted to the following for gifts of books during the year: Mrs. W. B. Binnian, Rev. F. J. Gauld, Miss Florence N. Bates, Mrs. J. L. Bremer, Mr. E. H. Tower, Mrs. E. F. Parker, Mr. W. H. Cunningham, Mr. L. F. Post, Mrs. W. B. Gagnebin, Mrs. F. W. Thatcher, Mrs. Fred James.

From all indications, I feel sure the next year will be one of marked interest in the work of the library, and regret very much that I shall not be here to see it.

The circulation records for the past year are as follows:

REPORT OF THE SCHOOL COMMITTEE

The report of the School Committee for the year 1927 with the financial statement of the Treasurer is herewith submitted to the Town. It is accompanied by the fuller reports of the Superintendent of Schools, Principal of the High School, and supervisors of departmental work.

There was paid into the Town Treasury in 1927 from the State School Fund, from the State Vocational Education Fund, from the lunch receipts, and from other sources, \$8,500.02. A similar amount will be received from the same sources in 1928, reducing the amount to be raised by tax levy by that sum.

The budget for 1928 is \$4,150 larger than last year. This increase is to provide an extension to the typewriter room at the Osgood School, meet the additional costs of the lunch rooms, put public toilets in the basement of the New School, and pay the salary of an additional grade teacher.

Early in the year the Committee began to receive requests for the use of the New School Hall from various organizations in the Town. After mature deliberation, taking into consideration the fact that the Town has at present no other safe and suitable hall for large public gatherings, and securing the advice of the State Department of Education, the Committee decided to allow the use of the school auditorium under proper supervision, and at such times as would not interfere with the work of the school, to the regular church, social, fraternal and charitable organizations of the Town. Accordingly, there have been several public gatherings there during the year, and in only one instance has the privilege been abused.

If the practice is to continue, public toilets should be installed in the basement. The Committee therefore have made provision in the budget for that purpose. We would welcome an expression of opinion from the voters at the Town Meeting relative to the matter of the public use of the school hall.

At the last annual Town Meeting the School Committee was instructed to study the needs of a trade school in this vicinity and confer with neighboring towns with a view of

ascertaining the possibility of establishing such a school. The Committee has made a careful study of the matter. The Superintendents of Schools and the School Committees of Hingham, Hull, Scituate, Marshfield and Cohasset were invited to meet at the Osgood School. The meeting was poorly attended by the representatives of the other towns. Mr. Collins also took the matter up personally with the other superintendents and visited Quincy and Weymouth Trade Schools and conferred with the State Department. Several members of the Committee made personal investigations. There was no active response to the advances made, and the Committee is convinced that coöperation, so far as erecting and equipping a trade school, cannot be expected at the present time. If a school is started, the cost of erecting and equipping must be borne by Cohasset alone. A building with necessary equipment to provide three or four courses would cost \$25,000. The cost of maintenance would be \$4,000 per course for each sixteen pupils, half of which would be paid by the State. From fifty to sixty pupils would be needed to maintain the school. It is doubtful if that number can be assured, especially when the study of the trade schools of the State shows that only one out of five pupils entering complete the entire course.

There are opportunities for Cohasset boys to enter the woodwork department of the Quincy Trade School, opportunities for entering other departments in the Boston Trade School, and also in the Weymouth Trade School which offers courses in printing, woodwork, automobile repairing, shoe shop, and farming, and is well equipped and conducted. It is the judgment of the Committee that the cost of building and equipping a suitable school in Cohasset and the uncertainty of the number of pupils who could be counted on, make it inadvisable to consider the matter further at this time. If the Town would help the pupils who enter trade schools elsewhere with their transportation as well as their tuition, it would be a cheaper and more satisfactory arrangement all around.

Respectfully submitted,

THE COHASSET SCHOOL COMMITTEE.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Cohasset:

I herewith submit to your Committee and through you to the citizens of Cohasset this brief annual report. Included in it are reports from the Principal of the High School, the School Physician, the Director of Club Work, and the special teachers.

New School Building

Classes were held in the new school for the first time last April. Cohasset had waited a long time cheerfully and patiently for relief from building congestion. We feel that we have in the building everything that was promised. The eight class rooms are cheery, well lighted, and well ventilated. The big play room which also serves as an auditorium and as a corridor connecting the class rooms has been in constant use during school hours by the school itself, and at other times by public organizations such as boy scouts, girl scouts, and physical education classes.

The spring concert of the High School was held on the night of the public opening of the building. Eight hundred citizens were in attendance to enjoy the exercises and inspect the building. The room was again filled at the graduation exercises. It was the first time that all who cared to, could attend the exercises of the graduation class.

The building was planned to care for present needs and so designed that additions can be added at small cost. Any appreciable increase in the school population will require additional rooms, if we are to avoid congestion and adequately house the lower grade children.

The rooms are distributed one each to the kindergarten and each of the first five grades, one for a combination of the first and second grades, and one for a combination of the third and fourth grades. The older fifth grade pupils are at the Osgood School. We now have thirty-four more pupils in the

first four grades than there were a year ago. This increase has been partly due to pupils coming from private schools, but also to some extent to a slight increase in the population of the Town.

Because of the limited funds of the Building Committee the School Committee has expended from the regular appropriation about \$2,000 on the grounds and building.

The Committee is asking for funds to do the following additional work: painting the walls of the play room and the class rooms, \$500; making two retiring rooms with lavatories and toilets in the basement for the use of the public when the auditorium is used for public purposes, \$1,500; erecting a fence on the southerly side of the lot, \$200; further grading work on the grounds, \$800.

The Osgood School

The Osgood School now houses the high school, the sixth, seventh and eighth grades, and one of the divisions of the fifth grade. It will probably be necessary to have the other fifth division in September. This eliminated entirely the past few months the use of the Bates Building and the annex. However, the annex will probably be used the coming year by the manual training classes, inasmuch as it will make possible better light and ventilation than is now secured in the basement room.

The room previously used as the principal's office is now in use as a typewriter room. The Committee is asking the Town for the sum of \$2,000 to increase the size of this room so that it will accommodate all the typewriters.

School Hours

At the request of a large number of the parents of pupils in the Osgood School a questionnaire was sent out to ascertain the wishes of the parents as to school hours. Eighty per cent of the parents of the pupils in this building voted for a session from 8.00 to 1.45, with a thirty-minute intermission for lunch. The plan seems to be meeting with approval.

School Lunch Rooms

The small cafeteria in the new building is serving the needs of the younger pupils admirably. It is equipped with an electric stove and an electric refrigerator. An attendant is in charge.

The new domestic science room and lunch room at the Osgood School is a decided improvement over the old quarters in the Bates Building. It is equipped with electric stoves, and electric refrigeration, additional class tables, and new tables for the lunch room and sewing room. This room which was so inadequately lighted for a study hall makes a perfectly satisfactory lunch room.

Because of the increase in the numbers buying lunches, the Committee is compelled to ask for \$2,000 more from the Town. The money received from the lunches goes back into the treasury of the Town so that only a small part of the money appropriated for the school lunch rooms is raised by taxation.

Resignations and Elections

In June Miss Cram, teacher of English, resigned her position. It was filled by the election of Miss Phyllis R. Collins, then teaching in the high school at North Andover. Miss Collins received her training at Radcliffe College.

Miss Polk resigned from the fourth grade position at the new school and the vacancy was filled by the election of Miss Marion Carpenter, a graduate of Bridgewater Normal School.

It was necessary to employ an additional teacher at the Osgood School in the sixth grade. Miss Elsie Melhorn, a graduate of Keene Normal School, was elected to this position.

Miss Frances Johnson resigned from the Beechwood position. It was filled by the election of Miss Florence Knutson, a graduate of the Wheelock Normal School.

Conclusion

In conclusion I wish to express to the citizens of Cohasset my appreciation for the generous support that is given. Not only is this shown in the construction of the new building, and the appropriation of the funds for the proper administration of the schools, but in the feeling of good will and constructive interest that is manifested toward the work.

Respectfully submitted,

O. K. COLLINS,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

Mr. Orvis K. Collins

Dear Sir: During the past year the spirit of the pupils of the Osgood School has been excellent, the coöperative spirit of the parents strong, disciplinary troubles negligible and the character of the work done by the pupils has shown a close relation to their ability curve.

The pupils of the Cohasset High School continue to impress me as a splendid, wholesome group of boys and girls who offer highly desirable associations and environment to any man's son or daughter.

There is available now in the Osgood School office a record of results of the Terman Psychometric tests. These tests, theoretically, measure native intelligence, or ability to learn in the academic field. We shall give similar ones this coming year. The results are subject to various qualifications however, as the tests are still something of an experiment. Pupils are not acquainted with the results but parents may visit the school office if they wish to discover their child's score on "Intelligence Quota" and its meaning in education.

Teachers

The teachers of the Osgood School are an experienced and capable group. No principal could ask for a better spirit than they show. Mr. Mulvey, the only janitor in this building now deserves commendation for his work. He is a fine man to have in the school.

Extra Curriculum Activities

The school presented last spring, the play "Clarence" written by Booth Tarkington. The proceeds were divided between the Class Night and Scholarship funds.

Under the direction of Mr. Taylor the third annual Glee

Club concert was given in the new school auditorium. It was a success from every standpoint. A school orchestra has commenced practice on Wednesday afternoons and the Glee Club rehearses after the school session closes on Friday. Mr. Taylor has aroused considerable interest in music and the school offers a credit toward graduation for satisfactory work in Glee Club and orchestra.

In October the freshman class held the first of a series of dancing parties, the receipts of which were turned into an athletic emergency fund.

Athletics

Mr. Ripley and Miss Brooks have devoted considerable time to an athletic program for boys and girls. The girls played baseball against several neighboring school teams in the spring and a well equipped field hockey team was organized in the fall.

I submit below Mr. Ripley's report on boys' athletics.

Mr. J. W. Doyle,

Dear Sir: Believing that a conception of teamwork and a lesson of loyalty should be the chief goals of school athletics, the policy of the athletic teams representing the school had been directed with hopes of approaching these goals. Facilities are limited; but modest additions to equipment have been made during the past year.

The high school baseball team played a schedule of twelve games in the baseball league of the South Shore Athletic Association, consisting of school teams from Kingston, Hanover, Norwell, Scituate and Marshfield. A second team represented the school in a triangular league with Hingham schools. Mr. Meyer organized teams in the junior high grades which played grade teams from other schools.

During the past fall two football teams represented the school. One team of boys either under 135 pounds, or under 16 years of age played a schedule of six games. The other team of boys either under 110 pounds or under 14 years of age played three games. At times the advisability of continuing football

with the high school group seemed questionable because of lack of interest; but the interest and unfailing loyalty of a few prevailed, and it is hoped that the school may be represented in the football league of the South Shore Athletic Association next year. The younger group had a squad of twenty-two boys, most of whom were playing their first organized football. They made an excellent start; and their loyalty and enthusiasm made it a real pleasure to work with them.

Respectfully submitted,

WILLIAM RIPLEY, JR.

School Hours

The change of school hours has been too recently made to give teachers an opportunity to judge of its value from the pedagogic viewpoint. The indications are however, that the pupils are more alert in their class work. They are able to enjoy more time outdoors, and the school day seems much shorter. This would be suggested by a better sustained mental vigor.

College Preparatory

Two boys of the class of 1927 have entered engineering school on our certificate, two graduates are taking postgraduate work and four girls have entered schools of higher education.

REPORT OF THE SUPERVISOR OF DRAWING

Mr. Orvis K. Collins,
Superintendent of Schools.

Dear Sir: I submit for your approval a brief report of the work of the Art Department for the year 1927.

During the last week of April, the department was moved from the "little building" to a room on the first floor of the Osgood School. Here, additional tables were installed so that we may accommodate all of the classes in this room, an arrangement which, from many angles, is the most satisfactory one that we have tried.

My work has included teaching the grades from five through the high school, and supervision in the first four grades in the primary school. Two afternoons a week are devoted to teaching and supervision in that building. The cheerful coöperation of the primary teachers has been very helpful toward the accomplishment of our aims in primary drawing.

In September, the high school enrollment was between ninety and one hundred, I believe, and of this number, seventy-two were enrolled in drawing classes, five of these pupils electing both free-hand and mechanical drawing.

One of the girls of this year's graduating class is now studying at the Vesper George School of Art in Boston.

In concluding this report, I wish to express my appreciation to you and to the members of the School Committee for our larger room and its conveniences and for your friendly coöperation in our problems.

Respectfully submitted,

FLORENCE E. KRAUS.

January, 1928.

REPORT OF THE TEACHER OF HOUSEHOLD ARTS

Mr. Orvis K. Collins,
Superintendent of Schools.

Dear Sir: I submit for your approval and acceptance a brief report of the Household Arts Department for the year 1927.

The same general program has been carried on in the high school and the grades as has been followed in previous years, a few necessary changes being made.

Sewing was taught in the fifth grade until the new school opened in April, when it was necessary to discontinue it. The sixth and ninth grades had sewing the entire year and cooking was taught in the seventh, eighth and tenth grades. The eighth and tenth grades also served in the lunch room at the noon hour.

The new school has a well equipped kitchen with capable women in charge. Regular lunches are served there as they are in the Osgood School and the lunches of the children are supervised by the lunch room manager and the teachers.

In the conclusion I wish to thank you for your coöperation and express to the School Committee my appreciation of their helpful attitude toward this department.

Respectfully submitted,

HELEN C. WELCH.

INDUSTRIAL ARTS DEPARTMENT

Mr. Orvis K. Collins,
Superintendent of Schools.

Dear Sir: In accordance with your request I submit to you my report of the Industrial Arts Department for 1927.

In my reports during the past ten years I have sought to convey a conception of the aims of the Manual Arts activities of our School Department. In this report I would call special attention to the need of providing suitable rooms for the carrying out of those aims, a matter which has been under advisement ever since my connection with the Cohasset schools.

Larger classes crowded out the printing last year, and as no other room seems available for that purpose in the building, woodworking alone has been offered since September, 1926.

For five years, from the sixth to the tenth grade, all boys are privileged to receive instruction in manual arts. In some cases boys have had assignments in shop work all through their high school course, making a total of seven years. One activity for five or seven years can give but a narrow conception of the great and complex industrial world of today, and therefore be of very limited value as guidance to an occupation.

Manual Arts has always had the most unsuitable and cramped accommodations of any department connected with our school. Now that all other activities have been provided with rooms that are satisfactory I hope that this department will be taken out of the poorly ventilated, poorly lighted and poorly adapted basement. One hundred boys use the room weekly, most of them for four periods. I can think of no other enterprise, public or private, in this Town, that is carried on in a basement.

Most communities have ceased to use basements for any kind of class work. In the new over \$400,000 high school in Hingham one of the best rooms on the first floor is allotted to manual arts. I do believe it to be in order that Cohasset emerge

from the basement idea and bring the department above ground.

The little building which has not been used for a year, offers an easy solution of the problem. With a small addition to the building, the work of which may be done largely by the boys, it will give opportunity for one or two activities in addition to woodwork, without additional cost of instruction, and serve the Town as a manual arts building for years to come.

I desire to thank you and the School Committee for your past manifestations of interest in the department, knowing that the above suggestions will likewise have your careful and broad consideration.

Respectfully submitted,

M. H. MEYER.

REPORT OF CLUB WORK

Mr. Orvis K. Collins,
Superintendent of Schools.

Dear Sir: I herewith submit to you my report as Director of Club Work for the season of 1927.

Although club work was instituted largely on account of the World War it is interesting as many boys and girls as ever, and the exhibits held at the Town Hall in September usually show an increase over the previous year.

A delegation of club members attended Achievement Day at Walpole in April. The poultry club made a visit to several large poultry farms in the spring, and all the older boys and girls attended the County Field Day at the Agricultural School at Walpole.

Some of the gardeners exhibited vegetables at the Weymouth Fair, winning a number of prizes. On account of the prevalence of diseases poultry was not exhibited to any extent outside of the Town.

The Canning Club was again in charge of Mrs. John Lawrence. For several years now Mrs. Lawrence has taken full responsibility for the club, giving freely of her time and ability in making the Canning Club a success, and the community is greatly indebted to her for that efficient public service.

For several years subscriptions to magazines were awarded for some of the first prizes instead of the usual cups. Last year a choice was given of a magazine or an equivalent amount of money deposited at a bank. As a result three winners chose to begin a bank account. Three dollars each were deposited for two of them at the Pilgrim Coöperative Bank and a like amount for one at the Cohasset Savings Bank.

Lillian Lawrence and Thomas Brown spent a week each at camp as a reward for good work done last season. Richard Tisdale who could not go last summer had his expenses paid to the Eastern States Exposition in September.

During my absence in July and August, Rev. Fred V. Stanley ably carried on the work. A complete list of the winners at the Cohasset exhibit and a statement of the finances will be found on the following pages.

Respectfully submitted,

M. H. MEYER.

REPORT OF THE SCHOOL PHYSICIAN

The year has been uneventful as regards epidemics. The occupation of the New Grade School has given improved facilities for my work, and the relief from crowding conduces to the health of the pupils.

My greatest anxiety relates to the large number of pupils who are at least ten per cent underweight, ninety-six in all. Some reason, capable of remedy, exists in most of these cases. The State Department of Health is making a systematic examination of the health of the pupils throughout the State. The School Committee and the Board of Health of Cohasset have made application for this examination, and this Town will probably be reached during the present year. It is hoped that the parents will coöperate in this matter, which means much for their children's health.

With appreciation of the coöperation of the Committee, Superintendent, teachers, and particularly of the School Nurse.

Respectfully submitted,

OLIVER H. HOWE, M.D.

REPORT OF THE SCHOOL DENTIST

Mr. Orvis K. Collins,
Superintendent of Schools.

Dear Sir: It gives me pleasure to submit to you the following summary of the work completed by me from January 1 to December 31, 1927, in the schools of Cohasset.

Necessary equipment was purchased by the Board of Health to outfit a dental room at the new building. The location of the room and the conveniences of the clinic facilitates the work, and pupils are kept from class work the shortest time possible.

The fact that ninety-seven per cent of the children of the first grade are having work done at the school clinic shows that parents are taking a greater interest in the work.

The following figures are taken from cards on file at the clinic:

Silver fillings.	431	Root canal fillings.	6
Enamel fillings.	52	Gold fillings.	1
Cleansings.	246	Cement fillings.	71
Teeth extracted.	193	Treatments.	37

Respectfully submitted,

FRANK A. DERBY, D.M.D.

CONTESTS AND AWARDS OF THE BOYS' AND GIRLS' SUMMER PROJECTS

The prizes were contributed by the following citizens and residents of Cohasset; Mr. and Mrs. Hugh Bancroft, Mr. Clarence Barron, Mr. and Mrs. Edward B. Bayley, Mrs. Mary K. Bolles, Mr. and Mrs. Edwin L. Furber, Mr. and Mrs. E. G. Howes, Mr. Benjamin D. Hyde, Miss M. V. McCormick, Mr. and Mrs. John F. McElwain, Mr. Arthur N. Milliken, Mrs. B. L. Sankey and Mrs. B. H. Savage.
